HIGH CAPACITY CONVEYORS

HIGH CAPACITY CONVEYORS

MERIDIAN

Maximize productivity while protecting the integrity of your crop with Meridian's High Capacity

Reliabelt Conveyors. Well designed, reliable and long-lasting, you will be able to move grain and seed like never before with our Meridian High Capacity Belt Conveyors. Innovation at its best.

FEATURES/BENEFITS

- High capacity belt conveyors - Up to 12,000 bushels/hour capacity
- 10" tubes with 20" belt
- Powder Coat paint finish
- Unique bottom hopper design, making a smooth transition from a large flat intake area to a round incline tube (no step and additional roller).
- Unique tube/return design - protects belting from the elements and eliminates the need for a truss system
- Low tension "S" belt drive system allows the belt to hug the contours of the conveyor to practically eliminate leakage

Product images in this brochure may show models and features which are not standard. Please consult your authorized Meridian dealer for product details specific to your region.

Providing Innovative Storage and Handling Solutions for Generations.

TRUCK LOADER SERIES

MAXIMIZE PRODUCTIVITY.

At up to 12,000+ bushels per hour, these conveyors are available in lengths of 45 and 55 feet, and come with a 10" diameter tube and a 20" wide belt. They're great for loading trucks on the farm or at the seed plant and for filling the air seeder cart in the field. With its high capacity and gentle handling of your commodity you can save time and money with the Truck Loader Series.

STANDARD FEATURES

- 10" tube, 20" chevron belt
- 5' low profile collapsible intake hopper
- Electric clutch
- Gas, diesel or electric belt drive
- Hydraulic lift
- Adjustable spout

OPTIONAL FEATURES

- 4 wheel hydraulic mover with joy stick power steering
- 13" Flexible Down Spout
- Heavy Duty Mover Light Kit
- Stainless Steel options available
