

Kwik Kleen – Dockage Cleaners

Used for sizing barley and removing small seeds & other dockage

Kwik Kleen Grain Cleaners assist farmers with the problems incurred while drying and storing grain. By removing fine materials prior to drying or storage, air can flow through the commodity more evenly and efficiently.

All models are available with electric or hydraulic drive mechanisms, and feature easily changeable screens. More than 20 screen sizes are available to accommodate many commodities.

Reduce your dockage and chances of overheating by pre-cleaning your grain before shipping or storing.
