

FLAMAN

Edge Agro Augers

Long-lasting, easy-to-use, safe, quiet, and efficient.

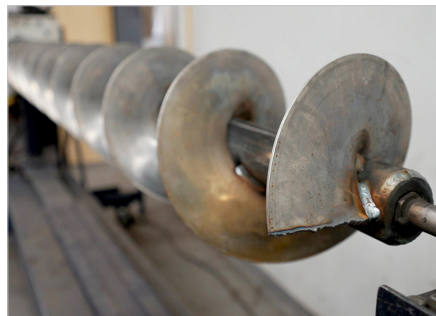

Edge Agro designed their high-capacity 12-42 and 14-42 loading augers for hard-working, long-term service on the Western Canadian Prairies.

DURABILITY & LONGEVITY

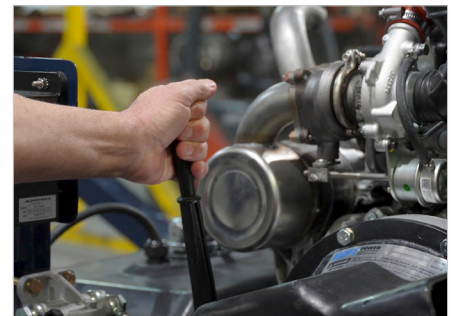

POWERFUL 56HP HATZ TURBO DIESEL ENGINE

- Eliminates the need for a separate tank of gasoline
- Large-capacity fuel and oil storage
- Circulating block heater for dependable cold weather starts
- Service and warranty backed by Cummins

DYNAMICALLY BALANCED SUSPENDED FLIGHTING

- Uses hangers to suspend flighting
- Prevents metal-on-metal wear and vibration on the bearings
- Increases the auger's lifespan by up to four times
- Low noise and gentle on commodities

INTEGRATED MECHANICAL HAND CLUTCH

- Made to handle torque levels that electric clutches can't manage
- Allows for gradual engagement when your auger's full of grain
- Adjusting clutch engagement and idle speed simultaneously is gentle on the auger
